### **DETAILED ACTION**

1. Applicant's submission filed August 22, 2006 has been entered and acknowledged by the examiner.
2. Applicant's arguments, see pages 4-7, filed July 20, 2006, and page 4, filed August 22, 2006, with respect to claims 1-4,6-8 have been fully considered and are persuasive. The rejections of claims 1-4 have been withdrawn.

### ***Allowable Subject Matter***

3. Claims 1-4,6-8 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art does not disclose nor suggest a discharge lamp with, in addition to the other features of the claimed invention, an electrode joined to a foil in a sealing portion of the lamp wherein the metallic foil has a cross-section of approximately omega shape (to be consistent with the disclosure of the invention, the examiner is interpreting "approximately omega shape" to mean a shape having an (approximately) arc-shaped portion, the opposing ends of which each have a straight portion extending therefrom in opposing directions and (approximately) perpendicular to the line (approximately) bisecting the angle subtended by the arc-shaped portion) and is welded to the electrode on a trace that is located at the curved portion of the omega shaped cross-section of the foil. Hence, claim 1 is allowed. Claims 2,6-8 are allowed as a result of their dependence upon claim 1.

Additionally, the prior art does not disclose nor suggest a method of welding an electrode and a metallic foil where, in addition to the other features of the claimed invention, an

electrode and foil are welded at a curved surface portion of the omega shape of the metallic foil.

Hence claim 3 is allowed. Claim 4 is allowed as a result of its dependence upon claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
